

# Poster & Banner Guide

## Be Bold!

Large format posters and banners can really make the most of your building – whether you **use them for branding and reinforcing your identity indoors, or making a community impact and attracting attention outside**. Be bold: it really makes a difference!

## Benefits of CPO's three Vinyl Banner finishes

### ● Vinyl Clipped Banner

**The ideal solution for most applications**

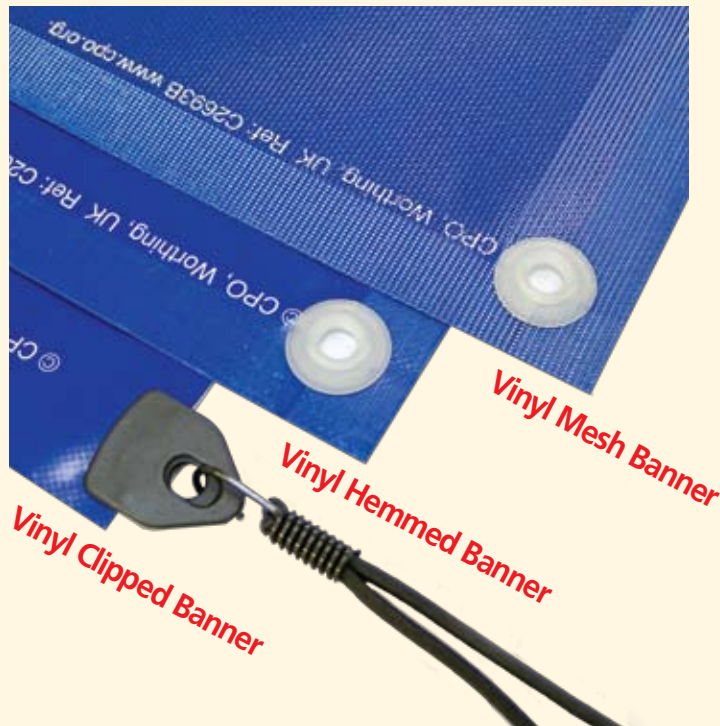

Around 20% cheaper than the vinyl hemmed banner, these are affordable and cost effective. The fixing kit offers you greater versatility when mounting and attaching the banner, and we offer a speedier turnaround time!

### ● Vinyl Hemmed Banner

Made from the same vinyl, this is a top quality premium product, traditionally finished, with hems and eyelets.

### ● Vinyl Mesh Banner

A top quality, lightweight solution. This perforated vinyl banner is ideal for windy conditions (eg scaffolding). Often used for stage backdrops. Traditionally finished with hems and eyelets.

## Banner Size Guide

**X-LARGE (XL)**  
1500mm x 4380mm  
59" x 172"
